

Chairman's Report

M. S. R. V. S.

A. G. M.

03rd March 26

Dear members,

We find ourselves at the beginning of another season, I'm sure you are busy deciding what events you wish to attend this year. Please can you contact Chris Stubbings directly if you wish to attend the event at Blue Lias this year. The premises have changed hands since last year; however, the new owners are happy to continue with the arrangement so it will be business as usual. A great event with a large area to have fun on, normally a couple of road runs and good food at the pub. A great weekend from Friday the 21st of May.

The Tewkesbury event is also on over the weekend of the 20th and the 21st of June. You can arrive after 12.00 on the Friday and must be off the field by 12.00 on the Monday. We will have application forms available soon on the website for you to download. We will be happy for these forms to be simply emailed to Liz. We will not be issuing any tickets to keep the cost down as previously.

It's also boiler testing season so anybody needing a boiler test should contact their local boiler tester as before. Please note Dave Evans due to health issues is no longer testing boilers for us. If he has previously tested your boiler, please contact Rob Gibbons who will assist you in sorting it out.

We are looking for speakers at our club nights, so if you or somebody you know is able to give an interesting talk, please contact Derek Englan.

The revamped website is well underway and we will be launching a new interactive sight in the near future where all members will be able to take an active role in the content.

I hope to see you during the year,

John Kidley Chairman.
